## Programs

These are compiled Microsoft Access databases. They are in exe form, which means that once activated they will expand to allow the user to copy them to a CD for installation.

CBE, or Composite Bible English has seven English Bibles along with Hebrew, Latin and five versions of Greek. This program is intended for the advanced Bible student and has reading, tracking, note taking, exporting, printing and internet searching capabilities.

CBS, Composite Bible Small has seven English Bibles and is intended for the newer Bible student. Built in program narrations and Book descriptions along with many congregationally sung hymns are key features.

CBW, Composite Bible World has all the features of CBE, plus 26 foreign language Bibles. It is intended for those who want to teach the Bible to someone for whom English is a second language. Therefore, comparisons of the student's native language, The Bible in Basic English and Greek are included.
