The Chinese Composite Bible

By

Gary D. Rose

The Chinese Composite Bible is intended to make you think more deeply about the text by progressive comparison of literal versions. Starting with Chinese, two English versions are progressively Compared in order to gain deeper insights into the text. The mind works differently when understanding one text, when comparing two texts and when looking at more than two. As a result, an over-all meaning is obtained, which I call a "composite" understanding. When you have reached this level of understanding, you will want to record your thoughts about what the text now says, what it means to you spiritually and how you plan to apply its meaning to your life. I hope that you will find this work a help in your studies and a blessing in understanding what God would like you to know.
